

Working Inside?

LOCATIONS

The following Areas have elevated heat and are included in the Heat Stress Program. Please take caution and follow the identified recommendations when working in these areas.

STEAM TUNNELS

- If you will be in the space for 30 minutes or more, contact EHSO for monitoring prior to entering the space
- Drink plenty of cool water throughout the work period
- Wear proper PPE, such as cooling vests
- Implement proper engineering controls, such as the use of cooling fans

MANHOLES

- If you will be in the space for 30 minutes or more, contact EHSO for monitoring prior to entering the space
- Drink plenty of cool water throughout the work period
- Wear proper PPE, such as cooling vests
- Implement proper engineering controls, such as the use of cooling fans

WHITEHEAD

- If you will be in the space for 30 minutes or more, contact EHSO for monitoring prior to entering the space
- Drink plenty of cool water throughout the work period
- Wear proper PPE, such as cooling vests
- Implement proper engineering controls, such as the use of cooling fans
- Open doors to cool the area, where possible

CHEMISTRY BUILDING PIT (EMERSON HALL)

- If you will be in the space for 30 minutes or more, contact EHSO for monitoring prior to entering the space
- Drink plenty of cool water throughout the work period
- Wear proper PPE, such as cooling vests
- Implement proper engineering controls, such as the use of cooling fans

DOBBS HALL MECHANICAL ROOM

- If you will be in the space for 30 minutes or more, contact EHSO for monitoring prior to entering the space
- Drink plenty of cool water throughout the work period
- Wear proper PPE, such as cooling vests
- Implement proper engineering controls, such as the use of mechanical room fan

METAL FABRICATION SHOP AT STEAM PLANT

- If you will be in the space for 30 minutes or more, contact EHSO for monitoring prior to entering the space
- Drink plenty of cool water throughout the work period
- Wear proper PPE, such as cooling vests
- Implement proper engineering controls
