

CHEMICAL SAFETY APPROVAL/CHEMICALS IN ANIMALS FORM APPROVAL PROCESS

- During the IACUC Protocol Review Process, the use of chemicals in animals may require submission of a Chemicals in Animals Form through BioRAFT for EHSO review. If prompted to submit, review the process below. Email esp@emory.edu for assistance.
- Chemical Class Exemptions: Standard of Care Medications, Analgesics, Anesthetics and Perfusion and Tissue Fixatives

New Chemicals in Animals Form Submissions

Updating Existing Chemicals in Animals Forms

Final Steps

Remember:

- Chemical use in animals may require DAR specific chemical safety training.
- Chemicals that require higher levels of containment may require submission of the supplemental Chemical Safety Form through BioRAFT.
- Chemicals in Animals Form Approval requires annual update submission.
